## Notes to Condensed Interim Financial Statements

Three-month and nine-month periods ended October 31, 2024 and 2023

(in Canadian dollars)

---

### 1. Statute of incorporation, nature of activities and going concern:

Quebec Precious Metals Corporation (or “the Company”), incorporated under the Canada Business Corporations Act, is a mineral exploration company operating in Canada. Its shares are traded on the TSX.V Stock Exchange under the symbol QPM, on the American Stock Exchange OTCQB Market under the symbol CJCF and on the Frankfurt exchange under the symbol YXEN. The address of the Company’s head office and registered office is 800 Victoria Square, Suite 3500, Montréal, Québec, H3C 0B4 and its website is [www.qpmcorp.ca](http://www.qpmcorp.ca).

The Company has not yet determined whether its mining projects have mineral reserves. The exploration and development of mineral deposits involves significant financial risks. The success of the Company will be influenced by a number of factors, including exploration and extraction risks, regulatory issues, environmental regulations and other regulations.

Although management has taken steps to verify titles of the mining projects in which the Company holds an interest, in accordance with industry standards for the current stage of exploration of such projects, these procedures do not guarantee the Company’s project title. Project title may be subject to unregistered prior agreements and noncompliance with regulatory requirements.

The financial statements have been prepared by the Company on a going concern basis, assuming that the Company will be able to realize its assets and settle its liabilities in the normal course of business as they come due.

For the nine-month period ended October 31, 2024, the Company recorded a net loss of \$1,110,294 (\$1,706,600 for the nine-month period ended October 31, 2023) and had negative cash flows from operations of \$811,268 (\$1,050,501 for the nine-month period ended October 31, 2023). In addition, the Company had accumulated deficit of \$57,184,465 as at October 31, 2024. Besides the usual needs for working capital, the Company must obtain funds to enable it to meet the timelines of its exploration programs and to pay its overhead and administrative costs. As at October 31, 2024, the Company had a working capital (total current assets less total current liabilities) of \$35,164 (a working capital of \$645,532 as at January 31, 2024) including cash of \$60,250 (\$22,883 in cash as at January 31, 2024). Management estimates that the working capital as at October 31, 2024 will not be sufficient to meet the Company’s needs during the coming year. The Company is still in exploration stage and, as such, no revenue nor cash flow has been yet generated from its operating activities other than from the sales of non-core assets. Consequently, management periodically seeks financing through the issuance of shares, the exercise of warrants and share purchase options to continue its operations, and despite the fact that it has been able in the past, there is no guarantee of success for the future. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these financial statements.

These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. The accompanying financial statements do not reflect the adjustments or reclassification of assets and liabilities, that would be necessary if the going concern assumption is not appropriate. These adjustments could be material.

### 2. Basis of preparation:

#### 2.1 Statement of compliance:

These condensed interim financial statements have been prepared in accordance with the IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) in accordance with IAS 34, Interim Financial Reporting.

Certain information, in particular the accompanying notes, normally included in the audited annual financial statements prepared in accordance with IFRS, has been omitted or condensed. Accordingly, these unaudited condensed interim financial statements do not include all the information required for full annual financial statements, and, therefore, should be read in conjunction with the audited annual financial statements of the Company and the notes thereto for the year ended January 31, 2024.

#### 2.2 Basis of measurement:

The financial statements have been prepared on the historical cost basis except for marketable securities which are measured at fair value and share-based compensation transactions, which are measured at fair value at grant date pursuant to IFRS 2, Share-Based payment.

#### 2.3 Functional and presentation currency:

These financial statements are presented in Canadian dollars, which is the Company’s functional currency.

#### 2.4 Use of estimates and judgements:

Critical judgments in applying the accounting policies of the Company in the preparation of these condensed interim financial statements and key assumptions related to these estimation uncertainties are the same as the ones listed and described in Note 2 of the annual audited financial statements of the Company as at January 31, 2024.

### 3. Material accounting policies:

These condensed interim financial statements have been prepared following the same accounting policies used in Note 4 of the annual audited financial statements for the year ended January 31, 2024.

#### 3.1 Adoption of new accounting standard:

There was no adoption of new accounting policies in preparing the condensed interim financial statements as at October 31, 2024.

#### 3.2 New standards and interpretations that are not yet effective and have not been adopted:

At the date of authorization of these financial statements, several new, but not yet effective, Standards and amendments to existing Standards, and Interpretations have been published by the IASB. None of these Standards or amendments to existing Standards have been adopted early by the Company. Management anticipates that all relevant pronouncements will be adopted for the first period beginning on or after the effective date of the pronouncement. New Standards, amendments and Interpretations not adopted in the current year have not been disclosed as they are not expected to have a material impact on the Company's financial statements.

### 6. Deferred grant:

On August 9, 2024, the Company received a first payment of \$49,996 representing an advance relating to financial assistance from the Ministère des Ressources naturelles et des Forêts (MRNF) for expenditures to be made by the Company for geometallurgical studies on the Elmer East property (the "Program"). The Program will reimburse the Company for 50% of its exploration expenses incurred by the Company related to up to a maximum grant of \$333,306 (required expenditures of \$666,612). As of the date hereof, no exploration expenses have been incurred by the Company related to geometallurgical studies on the Elmer East property. The advance of \$49,992 will be considered deferred grant until exploration expenses of \$99,992 have been incurred to earn this advance. Expenses on geometallurgical studies must be incurred between April 1, 2024 and March 31, 2026.

Other liabilities related to flow-through shares represent the renunciation of tax deductions to investors following flow-through shares financing.

During the nine-month period ended October 31, 2024, the Company committed to incur \$1,001,200 before December 31, 2024 and \$101,560 before December 31, 2025, in eligible exploration and evaluation expenses, in accordance with the Income Tax Act of Canada and the Taxation Act of Québec, and to transfer these tax deductions to the subscribers of a flow-through share financings completed in July 2023 and June 2024 (See Note 8). In connection with these commitments, the Company incurred cumulative eligible expenses of \$986,160 as at October 31, 2024. As at October 31, 2024, the Company has a remaining obligation to incur an amount of \$35,289 in exploration and evaluation expenditures until December 31, 2024 and has the obligation to incur an amount of \$81,311 in exploration and evaluation expenditures until December 31, 2025.

The disallowance of certain expenses by tax authorities could have negative tax consequences for investors or the Company (See Note 14).

### 8. Share capital:

#### (a) Authorized:

The Company is authorized to issue an unlimited number of common shares without par value.

#### (b) Issued and outstanding:

##### 2025:

On May 30, 2024, the Company issued to directors 228,971 common shares valued at \$13,738 for director's fees (\$0.06 per share) in order to settle 90% of the director's fees payable for the three-month period ended January 31, 2024 (10% paid in cash).

On May 30, 2024, the Company issued to directors 228,971 common shares valued at \$13,738 for director's fees (\$0.06 per share) in order to settle 90% of the director's fees payable for the three-month period ended April 30, 2024 (10% paid in cash).

On May 31, 2024, the Company concluded a private placement by issuing 3,700,000 units at a price of \$0.05 per unit for net proceeds of \$168,150 after deducting share issuance costs of \$16,850 including a finder's fee of \$5,600. Each unit consists of one common share and one warrant for a total of 3,700,000 common shares and 3,700,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.10 until May 31, 2027. These warrants have been recorded at a value of \$18,500 based on the residual value method. As part of this private placement, the Company also issued a total of 112,000 brokers and intermediaries' options. Each brokers and intermediaries' option entitles its holder to purchase one common share at \$0.10 per share until May 31, 2027. These brokers and intermediaries' options have been recorded at a value of \$2,171 based on the Black-Scholes option pricing model using the assumptions described below (Note 9 (d)). Total share issuance costs amounted to \$19,021 including the fair value of the brokers and intermediaries' options of \$2,171.

On June 21, 2024, the Company concluded a private placement by issuing 3,200,000 units at a price of \$0.05 per unit for net proceeds of \$150,272 after deducting share issuance costs of \$9,728. Each unit consists of one common share and one warrant for a total of 3,200,000 common shares and 3,200,000 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.10 until June 21, 2027. These warrants have been recorded at a value of \$Nil based on the residual value method. As part of this private placement, the Company also issued a total of 140,000 brokers and intermediaries' options. Each brokers and intermediaries' option entitles its holder to purchase one common share at \$0.10 per share until June 21, 2027. These brokers and intermediaries' options have been recorded at a value of \$2,303 based on the Black-Scholes option pricing model using the assumptions described below (Note 9 (d)). Total share issuance costs amounted to \$12,031 including the fair value of the brokers and intermediaries' options of \$2,303. A director of the Company subscribed for 200,000 units of this financing.

On June 21, 2024, the Company concluded a private placement by issuing 1,154,091 flow-through units at a price of \$0.088 per unit for net proceeds of \$88,184 after deducting share issuance costs of \$13,376, including a finder's fee of \$7,000. Each unit consists of one common share and one warrant for a total of 1,154,091 common shares and 1,154,091 warrants. Each warrant will entitle the holder to acquire one additional common share of the Company at an exercise price of \$0.10 until June 21, 2027. These warrants have been recorded at a value of \$18,985 based on the residual value method. An amount of \$24,871 representing the premium paid by the investors was recorded in other liability related to flow-through shares based on the residual value method. The Company has the obligation to incur \$101,560 in exploration and evaluation expenses in its Québec mining projects no later than December 31, 2025. As at October 31, 2024, the Company incurred \$20,249 in exploration and evaluation expenses in its Québec mining projects and consequently has to incur \$81,311 in exploration and evaluation expenses no later than December 31, 2025. ### 9. Warrants, share options, deferred share units and brokers and intermediaries' options:

#### (b) Share purchase options:

In November 2018, the shareholders of the Company approved a stock option plan (the "Plan") whereby the Board of Directors may grant to directors, officers, employees and consultants of the Company, share purchase options to acquire common shares of the Company. Terms of each share purchase option is determined by the Board of Directors. Share purchase options granted pursuant to the Plan can also be subject to the vesting requirements and period determined by the Board of Directors.

The Plan provides that the maximum number of common shares that may be reserved for issuance under the Plan shall be equal to 6,743,433 common shares of the Company. The maximum number of common shares which may be for issuance at the grant of the share purchase options to any optionee may not exceed 5% of the outstanding common shares at the date of grant and may not exceed 2% of the outstanding common shares for consultants and investor relations representatives. These share purchase options will expire no later than ten years after being granted.

The option exercise price is established by the Board of Directors and may not be lower than the market price of the common shares at the date of grant.

All share-based payments will be settled in equity. The Company has no legal or constructive obligation to repurchase or settle the options in cash.

The changes to the number of outstanding share options granted by the Company and their weighted average exercise price are as follows:

### 9. Warrants, share options, deferred share units and brokers and intermediaries' options:

#### (b) Share purchase options (continued):

The following table provides the weighted average fair value of options granted:

	October 31 2024	January 31 2024
	\$	\$
Weighted average fair value of options granted	\$0.01	\$0.04

The fair value of each option granted is estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	October 31 2024	January 31 2024
Weighted average expected dividend yield	0%	0%
Weighted average share price at grant date	\$0.045	\$0.072
Weighted average expected volatility	82.27%	70.92%
Weighted average risk-free interest rate	3.77%	3.66%
Weighted average exercise price at grant date	\$0.10	\$0.10
Weighted average expected life	2.00 years	4.41 years

The underlying expected volatility was determined by reference to historical data of the Company's shares over the expected average life of the options. No special features inherent to the options granted were incorporated into measurement of fair value.

An amount of \$3,938 and \$15,747 of share-based compensation (\$3,938 from granted and non vested share options, and \$15,747 from granted and non vested share options offset by a reversal of \$9,106 from forfeited share options non vested) were accounted in the statement of loss and comprehensive loss for the three-month and nine-month periods ended October 31, 2024 respectively and credited to contributed surplus (\$46,642 and \$79,415 for the three-month and nine-month periods ended October 31, 2023 respectively (\$46,642 from granted and non vested share options, and \$79,415 from granted and non vested share options offset by a reversal of \$1,562 from forfeited share options non vested)). As at October 31, 2024, an amount of \$10,258 (\$36,244 for the year ended January 31, 2024) remains to be amortized until August 8, 2025 related to the grant of stock options not vested.

#### (c) Deferred share units ("DSUs"):

The changes to the number of outstanding DSUs granted by the Company are as follows:

	October 31 2024	January 31 2024

#### Sakami:

The Sakami project is wholly-owned by the Company, consists of one large contiguous block of 281 mineral claims (142.50 km<sup>2</sup>) and includes the contiguous claims that were part of the project previously known as the project Apple (currently the Apple area). The project is located 90 km northwest of the Eleonore mine (operated by Newmont Corporation), 570 km north of Val-d'Or and 900 km northwest of Montreal. The project is subject to a NSR of 1% on certain claims and a NSR of 2% on 81 claims, half of which can be bought back for \$1,000,000.

#### Cheechoo-Éléonore Trend:

The Cheechoo-Éléonore Trend project is wholly-owned by the Company and consists of 128 claims (66.26 km<sup>2</sup>). The southeastern end of the project lies about 24 km northwest of the Éléonore mine, with a road access 14 km away.

#### Elmer East:

The Elmer East project is wholly-owned by the Company and consists of 929 claims (488 km<sup>2</sup>). The project is located along trend from the recent Patwon Prospect gold discovery made by Azimut Exploration Inc. ("Azimut") on its Elmer project located in the Eeyou Istchee James Bay territory, Quebec. The Elmer East project was acquired, by map designation, and includes the adjacent Annabelle block and the Opinaca Gold West block (505 claims, 266 km<sup>2</sup>). The western part of the Elmer East project is contiguous to Azimut's project. During the year ended January 31, 2024, 40 claims have been abandoned and 40 new claims have been acquired.

#### Kipawa-Zeus:

The Company has a 68% interest in the Kipawa project, through the Kipawa rare earth joint arrangement, with Investissement Québec holding the remaining 32% interest. The Kipawa project is part of a group of 73 claims (43.03 km<sup>2</sup>) that form the Kipawa-Zeus project. The Zeus claims are outside of the Kipawa project, are wholly-owned by the Company. The project is located in the Témiscamingue region of Quebec, 140 km south of Rouyn-Noranda and 90 km northeast of North Bay, Ontario.

### 10. Exploration and evaluation activities (continued):

#### Kipawa-Zeus (continued):

On August 9, 2021 and amended on February 4, 2022, the Company entered into a Binding Term Sheet with Vital Metals Limited ("Vital") for the acquisition by Vital of the Company's 68% interest in the Kipawa rare earth project and 100% of the Zeus Rare Earth project in Quebec, Canada, for \$8 million, subject to certain closing conditions.

In October 2022, Vital informed the Company that it will not proceed with the acquisition. Accordingly, the Company received a payment of \$1,013,124 (\$1,000,000 and interest of \$13,124) under the terms of the Binding Term Sheet as transaction termination fee.

#### Non-core assets:

##### Matheson:

The Company holds a 50% interest in four non-contiguous blocks totalling 23 unpatented cell mining claims, three leases (110005-mining rights only; 108148 and 110007-surface and mining rights), and four patented claims (mining rights only) totalling 12.68 km<sup>2</sup> from the Matheson Joint Venture project, located 24 km from downtown Timmins, Ontario.

### 11. Earnings per share:

The warrants, share purchase options and DSUs were excluded from the diluted weighted average number of common shares calculation since the Company is operating at a loss and that their effect would have been antidilutive. Details of share purchase options, warrants and DSUs issued that could potentially dilute earnings per share in the future are given in Note 9.

Both the basic and diluted loss per share have been calculated using the net loss as the numerator, i.e. no adjustment to the net loss was necessary for the three-month and nine-month periods ended October 31, 2024 and 2023.

### 12. Supplemental cash flow information:

The Company entered into the following transactions which had no impact on the cash flows:

	Nine-month period ended

	236,355	236,355	160,806	160,806

The fair values of the marketable securities totalize \$210,913 as at October 31, 2024 (\$514,496 as at January 31, 2024) and are determined by using the closing price at each reporting date.

The fair value of cash, investments, other receivables, trade accounts payable and other liabilities and loan is comparable to its carrying amount given the short period to maturity, i.e. the time value of money is not significant.

The following hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (that is, derived from prices); and
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement. Marketable securities are classified as Level 1 in the fair value hierarchy.

### 16. Capital management policies and procedures:

The Company considers the items included in equity as capital components.

	October 31 2024	January 31 2024
	\$	\$
Equity	40,133	647,367
	40,133	647,367

The Company's capital management objective is to have sufficient capital to be able to meet its exploration and mining development plan in order to ensure the growth of its activities. It also has the objective of having sufficient cash to finance its exploration and evaluation expenses, investing activities and working capital requirements. No changes were made in the objectives, policies and processes for managing capital during the reporting periods. The Company has no dividend policy.

### 17. Financial instrument risks:

The Company is exposed to various risks in relation to financial instruments. The main types of risks the Company is exposed to are credit risk, liquidity risk, price risk and interest risk.

The Company manages risks in close cooperation with the board of directors. The Company focuses on actively securing short-term to medium-term cash flows by minimizing the exposure to financial markets.

#### (a) Credit risk:

Credit risk is the risk that another party to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation.

### 17. Financial instrument risks:

#### (a) Credit risk (continued):

The Company is exposed to credit risk with respect to its cash for an amount of \$60,250 as at October 31, 2024 (\$278,923 as at January 31, 2024 to its cash, investments and other receivables). The credit risk associated with cash and investments is minimal, as cash and investments are placed with major Canadian financial institutions with strong investment-grade ratings by a primary ratings agency.

#### (b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet the obligations associated with its financial liabilities. Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has sufficient financing sources. The Company establishes budgets to ensure it has the necessary funds to fulfill its obligations.

In previous years, the Company financed its acquisitions of mining rights, exploration and evaluation expenses and working capital needs through private financings consisting of issuance of common shares and flow-through shares, and by optioning some of its mining projects. Management estimates that the cash as at October 31, 2024 will not be sufficient to meet the Company's needs during the coming year (see Note 1).

Contractual maturities of financial liabilities are as follows:

				October 31
				2024
	Less than	1-5 years	More than	\$
	1 year		5 years	Total
	\$	\$	\$	\$
Trade accounts payable and other liabilities	236,355	-	-	236,355

  

				January 31
				2024
	Less than	1-5 years	More than	\$
	1 year		5 years	Total
	\$	\$	\$	\$
Trade accounts payable and other liabilities	160,806	-	-	160,806

#### (c) Price risk:

The Company is exposed to fluctuations in the market prices of its marketable securities in quoted mining exploration companies. The fair value of the marketable securities represents the maximum exposure to price risk. For the marketable securities in quoted mining exploration companies, a weighted average volatility of 143.17% has been observed during the nine-month period ended October 31, 2024 (102.41% for the year ended January 31, 2024).

This volatility figure is considered to be a suitable basis for estimating how profit or loss and equity would have been affected by changes in market risk that were reasonably possible at the reporting date. If quoted stock price for these securities had increased as per the volatility, profit and loss would have changed by a weighted average markup of \$301,960 as at October 31, 2024 (weighted average markup of \$526,909 as at January 31, 2024) or if quoted stock price for these securities had decreased as per the volatility, profit and loss would have changed by a weighted average markdown of \$210,913 as at October 31, 2024 (\$514,496 as at January 31, 2024).

#### (d) Interest risk:

Interest rate risk represents the risk that the fair value or future cash flows of financial instruments fluctuates because of changes in market interest rates. The Company's exposure to cash flow risk related to the interest rate of its investment is limited due to its short term maturity.

### 18. Subsequent events:

On November 7, 2024, the Company issued 107,955 deferred stock units to an officer.

On November 7, 2024, the Company issued to directors 221,165 common shares valued at \$8,847 for director's fees (\$0.04 per share) in order to settle 90% of the director's fees payable for the three-month period ended October 31, 2024 (10% paid in cash).
